---

Good afternoon Honorable PCE Board of Directors,

In this edition of the PCE Board's weekly newsletter, we'd like to share the following:

1) IOUs apply to move from PCIA to PAM:

On Tuesday, the 3 big IOUs filed a joint application to completely reform the PCIA into a new creature - the Portfolio Allocation Mechanism (PAM). The PCE team is reviewing the application to develop our strategy for the coming fight while also working with the CalCCA team on joint efforts. The application and joint testimony is attached. Although it's a long read, we encourage you to peruse it to get a general feel for their ask, as this will be front and center over the next few months.

2) NEM Billing issue:

As was mentioned by Dan Lieberman at our Board meeting last night, Calpine sent Phase 2 enrollment notices to some NEM customers in error, rather than in their correct NEM enrollment phase:
- 841 NEM customers received the Phase 2 notice and were enrolled before their annual true-up
- 1401 NEM customers received the Phase 2 notice but were not enrolled

We are working with Calpine and PG&E to reverse the true-up for the 841 customers. PCE is sending notices to all affected customers this week, and the letters are attached so that you can see what your constituents may be receiving. All customers are back on their original true-up schedule.

3) Pradeep Gupta on a Panel Discussion of CCAs - May 3rd

Our own Pradeep Gupta will serve on a panel for the Annual Spring Seminar by the Power Association of Northern California (PANC). The overall focus of the event will be the growth in competitive retail electricity supply services in California. The seminar will take place on May 3rd in San Francisco. Details about this event can be found at this link:
http://www.panc.org/panc-meeting/

4) MCE's Integrated Resource Plan (IRP):

In follow-up to the Board's discussion about IRPs, attached is MCE's Integrated Resource Plan. MCE's IRP can also be found at this link: https://www.mcecleanenergy.org/wp-content/uploads/2017/02/MCE-2017-Integrated-Resource-Plan.pdf

5) PCE 101 Training:

Please let us know if you would like to attend our 2-hour introductory training session on the energy industry, key terms, and clean energy basics. The PCE 101 training will take place the week of May 15th, in Redwood City. The actual location will depend on how many people attend.

If you are interested in attending this training, please take a moment to complete this Doodle Poll and select every day and time that you would be available the week of May 15th: http://doodle.com/poll/cr2gzw4mxpnrmrs9 Please respond by April 30th.

6) PCE is hiring! Renewable Energy Analyst position has been posted:
Please help us spread the word that PCE is hiring! A position for a Renewable Energy Analyst has been posted on the PCE website: https://www.peninsulacleanenergy.com/learn-more/join-our-team/ **The position will be open until May 3.**

7) The Citizens Advisory Committee Application deadline is April 30th:
Please help us spread the news that the application for the Citizens Advisory Committee is on the PCE website, and **the deadline to apply is April 30**. See https://www.peninsulacleanenergy.com/learn-more/citizens-advisory-committee. Our goal is to have a committee with members from all over the county, with diverse community and business perspectives.

Thank you and have a wonderful weekend!

Jan
